

CLEANING SOLUTIONS FOR YOUR AQUARIUM
FOR FRESHWATER AND SALTWATER AQUARIUMS

AQUARIUM CLEANING MADE EASY

From aquarists for aquarists. We ourselves have been aquarists for years now – and we're still fascinated by anything that has to do with the world of aquaristics! Two impressive aquariums have decorated the entrance area of our company since 2014: A 5,000-litre Amazon basin and a 15,000-litre Malawi cichlid basin. We develop high-quality cleaning products for aquariums together with the well-known aquascaper Oliver Knott – and he has been assisting us with our aquaristic hobby since the outset. "Jöst Abrasives" has been producing cleaning products for the flooring industry for some time now. With our knowledge of cleaning and Oliver Knott's many years of experience in aquascaping, we have succeeded in creating high-quality and innovative products for cleaning freshwater and salt-water aquariums.

High quality, innovative appearance, sustainability and attention to detail were the decisive points in the planning and design of our aquaristic products. We wanted to develop tools that would make the life of an aquarium lover much easier – and help every enthusiast to have even more fun with his aquarium. Our aquarium products that are designed for practical use, such as the cleaning glove and various holders in different shapes, will always offer the optimal solution for any task in, on and around your aquarium. Removing coarse dirt, lime crusts, algae deposits – no cleaning wish will remain unfulfilled if Jöst products are involved!

- CLEANING PADS
- LIGHTING
- FERTILIZERS
- ACCESSORIES
- MERCHANDISE

AQUASCAPER OLIVER KNOTT

Oliver Knott is well known for his unique design of aquarium landscapes – and he’s an absolute professional when it comes to the care and cleaning of aquariums. We were able to persuade this first-class expert to come on board with us – and since then he has supported us with his expertise in all the aspects of the world of aquaristics.

Oliver was involved from the very outset when the brand “Jöst Aquaristic” was created. He has known the Jöst products since day one – and he’ll take you along with him when he cleans an aquarium, letting you see our products in action.

CLEANING PRODUCTS

Everything for a sparkling clean aquarium: Water stains, algae deposits or aquarium floor cleaning – with Jöst Aquaristic® products at your side

FOODPORN

Futter bei die Fische

- Made in Germany
- Natural ingredients
- Sustainable packaging

High quality, attention to detail and the idea of sustainability have been anchored in our company philosophy since the outset, and they are also decisive criteria for our product packaging. With their bright design and striking colors, the food cans are a real eye-catcher and can be easily refilled with our refill packs. They're not only sturdy and unbreakable, but they're also very durable, so they have a long life. In terms of sustainability, cans made of tinplate are the front runners.

WHO WE ARE?

There's more to us that meets the eye – because in our company, clever minds work together as friends. We cooperate closely and put a lot of passion into our products – and that's what distinguishes us from the rest.

SUSTAINABILITY

Our name stands proudly for sustainability and environmental protection – and we produce adhering to the highest environmental standards at our site in Wald-Michelbach in the beautiful Odenwald. All our products can be used often after you've cleaned your aquarium – and there's no need for cleaning agents or chemicals.

USAGE

Our Blue Wave cleaning sponge looks inconspicuous – but its real power lies behind the sponges

An unbeatable couple! The GUPPY SET will even remove water stains from the outside of your glass panes – and the microfiber cloth will restore everything to its original condition.

FOR A SPOTLESS AQUARIUM

It does more than just clean! With our microfiber towel you can polish your aquarium until you can see yourself reflected in the glass!

EASY TO USE

Many fish lovers try to avoid cleaning their aquariums as long as they can – but the longer you put it off, the harder the job gets. The efficient and effective aquarium cleaning systems from JÖST aquaristic

The Microfiber Pentagon Glove is almost a multitool. And it's fluffy, too!

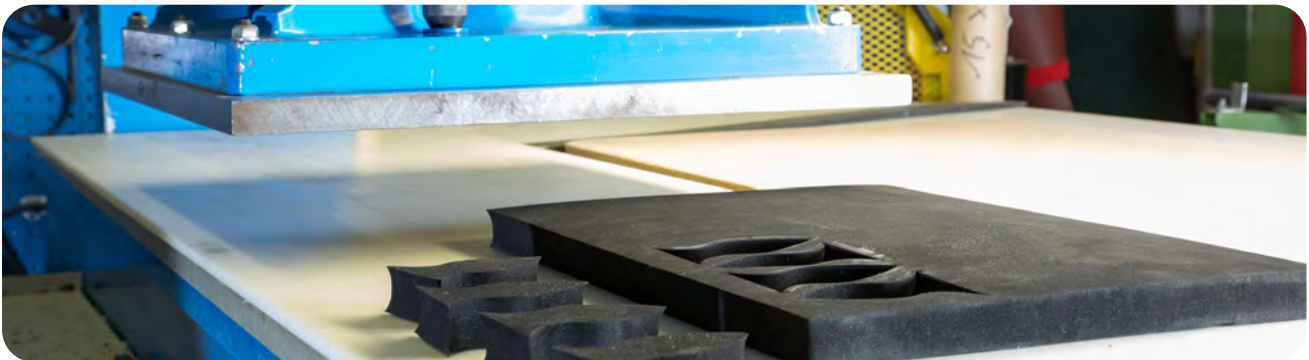

NO CLEANING-WISH WILL BE UNFULFILLED

Here's a powerful partner for you if there seems to be no end to the aquarium glass: our Catfish holder! Its attachments and sturdy handle make aquarium cleaning Child's play!

MADE IN GERMANY

We produce exclusively at our location in Wald-Michelbach in the beautiful “Odenwald”, making sure we safeguard jobs in the region. Our new logistics and dispatch centre, which will be completed in 2020, was also built according to the highest environmental standards. On an area of more than 6.500 square metres, we also have additional storage space and shipping options, and that means we can supply you even faster. The ultra-high quality and sophisticated designs of our products convince every user.
